Subject: Dioxin/Furan Testing at the San Jacinto Waste Pits Site

Dear Mr. Miller,

I am writing to find out what environmental consultant(s) are working for EPA on the San Jacinto site. Is this information you can provide to me? Our laboratory, Vista Analytical (formerly Alta Analytical), has been analyzing water, soil, sediment, tissue and human serum for Dioxins/Furans since 1990 and I'm interested to find out if they need any additional lab support.

Thank you for any guidance.

Best Regards,

Jennifer Miller
